Lebak Timur No. 387, Arosbaya, Bangkalan, Jawa Timur, Indonesia 69151

I am a tech enthusiast who consistently stays up to date with the latest advancements in technology. With a strong background as a technician, I possess extensive experience in troubleshooting and repairing Apple products. In addition to my technical expertise, I also have experience working as an administrator. I am highly motivated to continuously learn and adapt to new challenges across various work environments. Having frequently interacted with customers, I have developed strong interpersonal and communication skills.

Furthermore, I am proficient in basic Microsoft Office applications.

Work Experiences

Zhang Palace Restaurant - Surabaya, Indonesia

Jun 2020 - Jul 2020

Cook Helper

I worked as a cook helper for one month, assisting with a variety of kitchen tasks to support a smooth workflow. This included preparing plates and dressings while chefs were actively cooking, as well as supporting other duties as needed.

- Assisted chefs with a variety of kitchen tasks to support efficient workflow and timely meal preparation.
- Prepared plates, garnishes, and dressings in coordination with chefs during service hours.
- Maintained cleanliness and organization in the kitchen to uphold hygiene and safety standards.
- Adapted quickly to different responsibilities as needed to ensure smooth kitchen operations.

CV. iFixied Global Indonesia - South Jakarta, Indonesia

Mar 2024 - Sep 2024

Apple Product Technician

I worked as a technician at an unauthorized Apple service provider, where I was responsible for diagnosing and troubleshooting a wide range of customer device issues. In addition to my technical duties, I also served as an administrator during peak times or when my colleague was unavailable. This included handling customer inquiries, processing transactions, and ensuring a smooth end-to-end service experience.

I often worked beyond regular hours to meet urgent customer requests, including completing repairs overnight when necessary. I am accustomed to working under high-pressure conditions, especially during busy periods, complex repairs, or time-sensitive situations involving customers in a rush.

- Fast repairing without reducing the quality with 95% rate of success repair
- Best in product knowledge
- Great interpersonal skill within 90% customer satisfaction
- Provided technical support for 550+ weekly customers, including computer system questions, complaint resolution, and troubleshooting.
- Performed comprehensive troubleshooting and repair services for a wide range of Apple devices.
- Frequently managed both technical and administrative responsibilities, including customer service and transaction processing, especially during peak hours or in the absence of administrative staff.
- Demonstrated flexibility and dedication by working overtime to complete urgent customer repairs and meet next-day deadlines.
- Thrived in high-pressure environments, handling complex repairs, managing impatient customers, and maintaining service quality during peak periods.
- Consistently exceeded the standard duties of a technician by ensuring smooth front-desk operations and providing a seamless customer experience.

Luckycat Supply - East Jakarta, Indonesia

Jan 2025 - Nov 2025

Store Manager

- Great Interpersonal Skill by gaining customer's trusts with customer satisfaction 90%
- Good Product Knowledge so that I recommend the styling for the customers
- Up to date about the fashion markets and trends
- Worked with wholesale and retail customers, supporting sales efforts by resolving customer inquiries.
- Managed daily store operations to ensure smooth business processes and optimal customer experience both offline and online.
- Coordinated operational needs including store maintenance, cleanliness, and facility management, such as sourcing and coordinating technicians for equipment repairs (e.g., air conditioning systems).
- Supervised and mentored storekeeper staff, ensuring accurate inventory handling and efficient workflow.
- Developed and maintained a customer database system to record buyer and seller information for the buy-sell-trade business model, improving data organization and transaction tracking.
- Handled customer complaints and service recovery, ensuring issues were resolved effectively while maintaining high customer satisfaction.
